

Phasor summation

$P = |\psi|^2 = \rho_{\text{bit}}$
Born rule — no circularity

Interference pattern $I(\theta)$

$$I \propto 1 + \cos(\Delta\phi)$$

screen

$$I = |\psi_1 + \psi_2|^2 = |\psi_1|^2 + |\psi_2|^2 + 2|\psi_1||\psi_2|\cos(\Delta\phi)$$
